Hello! We wanted to let you in on a special offer for Hexis Vinyl! Below is a pricing guide to our odd roll inventory for the end of 2014 and our loss is YOUR gain! We like our shelves nice and clean with full rolls, so help us by cleaning out our shelves!

HOW IT WORKS: You can see the pricing guide below, notice the far right hand column is the normal price per yard for the corresponding film. All sale price items are listed by the roll length that is available. To find out what the yard price will be takes some simple arithmetic, just take the "because we love you" sale price or the "If you buy" price and divide by the "QTY" available. Of course, the real sharp guys and gals out there will notice that you can practically steal from us by purchasing the remainder of any SKU listed.

If you need assistance, or a human calculator, feel free to call/email Paul, Jesse or Chris @44Tools (866-448-6657)

Item Number	Item Description	QTY Available	If you buy remainder of SKU	If you buy \$350+	Sale Price because we love you!	Normal Yard Price
